ABOUT ME

- I'm currently a student at the University of Notre Dame, pursuing a major in Computer Science.
- I have developed a passion for Computer Science out of an extensive participation in algorithmic competitions and from actively learning software development by working on personal projects.
- I have a focused mindset and am constantly looking for new challenges.
- I am currently looking for internship opportunities related to software development.

TECHNICAL SKILLS

- C/C++ (4 years focused on competitive programming)
- Bash
- Go
- SQL
- Clojure
- HTML/CSS
- JavaScript
- Linux
- Knowledge in Agile methods (XP)

EDUCATION

B.S. in Computer Science — University of Notre Dame

Aug 2018 — May 2022

EXPERIENCE

Freelancing

Jan 2018 — Jul 2018

- Worked mainly in the development of web solutions for small clients, implementing both the front end and the back end in PHP or Node.js, using SQL databases to store the application data.
- Acquired experience in customer relations, project management and dealing with requirements and deadlines.
